

# Take **2** minutes to talk to your children about STEM

## Your kids listen to you more than you think

Parents are the top influencers of student subject selection.\*

Tabita and Djai Hunter  
Mother and daughter, STEM advocates

## Step 1

Find out what your kids enjoy about STEM – like the technologies they already use and the types of activities and/or jobs they find interesting.

## Step 2

Visit [Take2STEM.com](https://www.Take2STEM.com) to hear some great stories about STEM and learn about the different STEM pathways available for WA students.

## Step 3

Take 2 minutes to talk to your children about studying STEM at school, TAFE or university. Even small chats can help them build an exciting and diverse STEM career.
